### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art of record does not clearly teach nor fairly suggest a method and apparatus for transmitting a data stream between a host controller and a peripheral device over an extended distance wherein the method comprises the steps of feeding a first original outgoing digital signal from a host controller to a local expander unit, which signal is transmitted as an outgoing transmission signal over a signal distribution system, which outgoing transmission signal is received as a first original outgoing digital signal at a remote expander unit and delivered from the remote expander unit to at least one peripheral device. The method further comprises the steps of receiving at the remote expander unit a reply digital signal coming from the at least one peripheral device, which signal is transmitted as a reply transmission signal (over the signal distribution system) which is received at the local expander unit as a reply digital signal, which reply digital signal is stored until the receipt of a subsequent original outgoing digital signal from the host controller.

Accordingly, the claims of the present invention are not found to be anticipated nor made obvious by the prior art of record. Therefore, claims 1-40 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
